AMANDA TURNED 15!

SPECIAL MONTH

October was a great month, we had amazing weather and we got to see many people back on the street walking and getting back to “Normal”, with a face mask and hand sanitizer every 2 minutes!

This allowed us to have another BBQ lunch with our neighbors and keep building the relationship there.

Amanda turned 15 and after living in Mexico most of her life, that was a day she had been looking forward to. We stayed home and invited the neighbors over. Martha, our neighbor was super excited and helped. She gave April ideas for a picture session and helped with the outfit. This allowed April to spend more time with her. They have become closer and have a lot of conversations.

I had the opportunity to go on a two hour walk with another neighbor. It was very cool because he asked about our work and got to talk about God, Church, gospel, etc!! He is a Catholic who is far from the church, but very interested in God and even interested in studying theology!! He has many questions and that is a great thing. Please keep praying for that relationship, that God would use us to do whatever He wants. Pray that he uses our words and lives to share Christ. We are excited to see what God will do in this place. Thank you for your faithful prayers and support, because of that we are able to spend time talking to people and sharing Christ!

Visa Renewal

We had our visa renewal appointment this week and we handed in all the paper work. We are praying that they will allow our kids to continue Online School. This is not normal here, please pray!

The Gritt's

The Gritts family, fellow missionaries in Spain, came for a 3 day visit and we had a refreshing time of fellowship! Always good to see friends! We got to try TJ's famous Paella!

The Anderson's

Please pray as another Missioanry family is moving to Santander and we are looking forward to having more hands on deck to reach more people for Christ!!

BACK TO LOCKDOWN!

It's back!! After the rise of many more Covid cases in Spain the Government of Cantabria has just declared another lockdown for our area.

Our next door neighbors were quarantined for 2 weeks, as the whole family tested positive.

We are glad their symptoms were mild and are completely recovered. We told them we had been praying for them and they were very thankful. We offered to help them in any way but praise God they did great!
